

Loughton Manor Curricular Goals

Our Foundation Stage Curricular goals are goals that we hope all our children can achieve by the end of our Foundation Stage.

- All our children will learn to ride a two wheeled bike and know where in Milton Keynes it is safe to ride
- Our children understand that we all have our own unique differences, through daily check-in circles and community events, such as One World Week and Men Behaving Dady event
- Our children love to explore outdoors and learn about nature through forest school sessions
- Through challenges and our school values, our children become resilient learners
- Our children are able to have a back and forth conversation as a result of our use of the SHrec Approach and by allowing time to talk each day in a range of ways
- Our children become confident mathematicians working with numbers to 10, through mastery sessions, developing their reasoning skills
- Our children are able to solve a disagreement by using their words through Restorative Practice
- All our children grow a plant from seed and can explain what it needs to grow
- Our children can hold a pencil effectively with tripod grip as a result of Story Dough, Funky Fingers sessions and Write Dance sessions
- Our children have developed a love for stories and this is demonstrated through all areas of our curriculum and family events, such as Books In The Woods and Books For Breakfast, Library sessions and our story bears
- Our children all experience a walk to local shops and amenities and show awareness of their local environment and community, and experience of running their own school cafe
- Our children take part in Expressive arts week and produce a piece of artwork for our school art exhibition
